

Digital Around
the World

Digital Around the World

a global 24-hour conference
on digital transformation

October 20th – October 21st 2022

IOTForum

Digital around the World, is a 24-hour non-stop virtual conference organized by the IoT Forum. It brings together experts from all around the world to present and discuss the latest technological innovations and trends in digital transformation. The last edition was very successful gathering 600 participants from 53 countries from all around the world. Around 100 top-level speakers presented their visions on emerging technologies and digital transformation, making this virtual event really magnificent.

Scope and Application Domains

Digital Around the World invites you to a digital journey across:

1. **Emerging technologies for digital transformation** with lead experts and industries from Artificial Intelligence, DLT, and Internet of Things to Quantum and future networks
2. **Technologies for the Good:** eHealth, smart economy, sustainable development, privacy, etc.
3. **International Cooperation in the Research and Innovation domain.**

Participants Profile

Industry, experts and top-level researchers, as well as specialized media.

Why sponsoring Digital Around the World

- Get a global visibility, outreach and recognition in an audience of experts
- Make your support visible on the conference website and during a thematic session
- Post a one-page presentation of technology for good on the conference website (health, privacy, SDGs)
- Support international dialogue and cooperation for digital transformation

digitalaroundtheworld.org

Driven by the **IoT Forum**, a not-for-profit membership-based organization born from the research community, **Digital Around the World** intends to build a bridge around the world to promote international research and cooperation.
